PROFESSIONAL SUMMARY

Software Engineer specialized in **Java and Spring Boot**, with experience building REST APIs and microservices deployed on AWS for enterprise projects in the financial sector (DataCrédito Experian). Built the Bitácora backend from scratch, now in production. I work with Scrum, automated testing (JUnit, Mockito), CI/CD and Clean Architecture.

PROFESSIONAL EXPERIENCE

Kidar · *Java Software Engineer* *May 2026 – Present · Bogotá*

Bitácora — Java, Spring Boot, React, AWS

- Built the Spring Boot backend and the React frontend from scratch; the platform saves **USD 18,000 per year**.
- Designed the REST APIs and the data model, with unit tests in JUnit and Mockito.
- Deployed on AWS (ECS, API Gateway, Aurora, S3, Lambda) with Docker and automated CI/CD.

DataCrédito Experian · Credit Chatbot — Java, Angular, Microservices

- Developed a chatbot that personalizes the credit interface, integrated with **5 impacted microservices**, under strict financial security standards.

DataCrédito Experian · AI Ingestion Framework — Scala, AWS

- Took part in the design and development of an AI-assisted data ingestion framework in Scala: ingestions **over 50% faster**.

Internal Tools — Python, FastAPI, MySQL, AWS

- ERP and time tracking with automated tests: **−20%** in the project management cycle.
- Refactored over 20,000 lines of legacy code to Clean Architecture: **−40%** time per new feature.

Independent · *Freelance Developer* *Oct 2025 – Apr 2026 · Remote*

JavaScript, TypeScript, Node.js, Cloudflare

- Developed websites, web applications and Node.js APIs for clients, from requirements to deployment on Cloudflare.

PROJECTS

Sentinel — Yuno Hackathon (48 h, selected) · *Microservices, Fintech* *Dec 2025*

- Real-time payment anomaly detection: 7 microservices on Docker Compose, PostgreSQL and a dashboard.

Adkio — 2nd place, GTM Hackathon Bogotá 2026 · *FastAPI, React* *May 2026*

- Turns a brief into Meta, TikTok and Google Ads campaigns with AI agents · adkio.pages.dev

EDUCATION

Universidad EAN · *B.S. in Systems Engineering* *Expected graduation: Jun 2027*
Technical Degree in Software Programming *Completed*

TECHNICAL SKILLS

Java & backend: Java, Spring Boot, REST APIs, microservices, Clean Architecture
Other languages: Scala, Python (FastAPI), Node.js, Go
Frontend: Angular, React, TypeScript, JavaScript
DevOps & cloud: AWS (ECS, API Gateway, Aurora, S3, Lambda), Docker, CI/CD, Git, Azure DevOps
Testing: JUnit, Mockito, Postman, TDD · Scrum
Databases: MySQL, PostgreSQL, MongoDB, Redis

CERTIFICATIONS & LANGUAGES

Certifications: AWS Cloud Foundations · AI-DLC Foundations (AWS) · Full-Stack Engineering with JavaScript (CodeSignal)
Languages: Spanish (native) · English (advanced)
