

JULIÁN ANDRÉS RESTREPO CASTAÑO

Software Engineer | Full-Stack, Cloud & AI Agentic Systems

Bogotá, Colombia • julianrestrepo012@gmail.com • +57 333 750 8344 • github.com/JulianIamaravilla

PROFESSIONAL SUMMARY

Results-driven Software Engineer with hands-on expertise building scalable cloud architectures, full-stack web applications, enterprise SaaS solutions, and Agentic AI systems. Proven track record at Kidar architecting core SaaS platforms (ERP and Time Management) that reduced operational friction, saved \$18,000 USD annually, and accelerated project management workflows by 20%. Lead Software Engineer at Scala / DataCrédito Experian designing a core AI Data Ingestion Framework that reduced overall development and QA cycles by over 50%. Deep expertise in Python (FastAPI), Java (Spring Boot), React, AWS Cloud infrastructure, and modern AI Development Lifecycles (AI-DLC).

TECHNICAL SKILLS

Primary Languages & Frameworks: Python (FastAPI), Java (Spring Boot), React.js, MySQL

Secondary Languages & Tools: Node.js, TypeScript, JavaScript, MongoDB

Cloud & DevOps (AWS): S3, EKS, ECS, AuroraDB, Bedrock, AWS Lambda, EC2, API Gateway, VPC, Docker, CI/CD

AI & Agentic Systems: Agentic System Design, RAGs, Vector Databases, Anthropic Models, LiteLLM, AI-DLC (Artificial Intelligence Development Life Cycle), Machine Learning & Deep Learning Fundamentals

Software Architecture & Methodologies: Clean Architecture, Spec-Driven Development (SDD), Test-Driven Development (TDD), Behavior-Driven Development (BDD), Domain-Driven Design (DDD)

Domain & Theoretical Knowledge: Information Security Systems, Big Data Engineering, Project Management

WORK EXPERIENCE

Lead / Principal Software Engineer (AI Frameworks)

2026 – Present • Bogotá, Colombia

Scala / DataCrédito Experian

- Core AI Ingestion Framework: Spearheaded as Principal Software Engineer the architecture and development of an AI-driven Data Ingestion Framework for Scala (the foundational data backbone of Experian), decreasing Data Engineering development and QA lead time by over 50%.
- Credit Interface Personalization Chatbot: Co-designed and engineered an interactive AI chatbot solution integrated into Experian / DataCrédito platforms to deliver personalized credit interfaces and user experiences.
- Enterprise AI Integration: Designed scalable, secure AI pipeline interfaces ensuring robust security standards and compliance within large-scale financial data ingestion processes.

Software Engineer

April 2026 – Present • Bogotá, Colombia

Kidar

- Core SaaS Architecture & Cost Optimization: Built from the ground up two core internal SaaS platforms (ERP & Time Manager) utilizing Python (FastAPI), MySQL, and AWS, eliminating operational bottlenecks, saving \$18,000 USD/year, and cutting project management cycle times by 20%.
- Enterprise Data Workflows: Streamlined company-wide data architecture and internal information pipelines, driving cross-functional synchronization and operational efficiency.
- Legacy Refactoring & Quality: Refactored over 20,000 lines of legacy code to Clean Architecture within 3 weeks, improving maintainability and reducing ongoing feature development time by 40%.
- Serverless AI Proof of Concept: Designed and deployed a serverless PoC using AWS Lambda and Bedrock AgentCore, accelerating team technical exploration by 2 weeks.

FEATURED PROJECTS

Adkio – Intelligent Ad Orchestrator

Personal Project

- Engineered an automated advertising campaign orchestrator converting natural language specifications into multi-channel marketing campaigns using Anthropic AI agents behind a REST API.
- Implemented with Python (FastAPI) backend and React, TypeScript, and Tailwind CSS frontend; containerized via Docker and deployed using Supabase and Railway.

EDUCATION & CERTIFICATIONS

B.S. in Systems Engineering

Universidad EAN (6th Semester, In Progress) • Bogotá, Colombia

Technical Degree in Software Programming

Completed

Certifications

AI-Driven Development Lifecycle Foundations (AI-DLC) – AWS • Full-Stack Engineering with JavaScript – CodeSignal • AWS Cloud Foundations – AWS

Languages

English (Professional / Advanced, C1/B2) • Spanish (Native)
